

-- Create a repl.it account in 5 minutes or less --

1. Go to <https://repl.it/signup>
2. Type in a username, your e-mail and a password. If you want to use a gmail account, click the G at the top right corner (in which case repl.it will ask you to specify a username in step 4)
3. Go to your e-mail to verify your account, if you have not received an e-mail yet, you can continue to step 4 and come back to step 3 in a minute.

Hi mjmiossec,

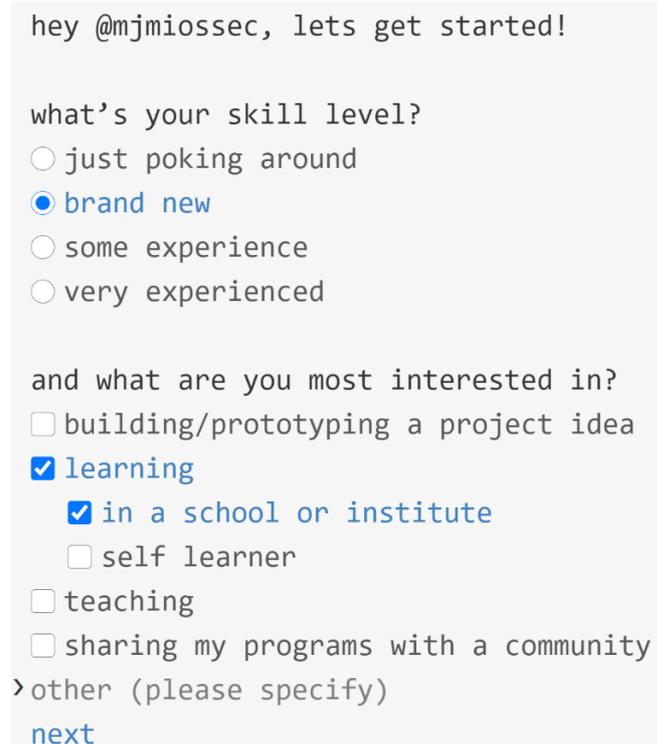

Thanks for signing up to Repl.it! We want to make sure that we got your email right. Verifying your email will allow you to engage in our community, [Repl Talk](#). Please verify your email by clicking the link below.

[Complete Verification](#)

If you cannot click on the link, copy and paste the following URL into a new tab in your browser:

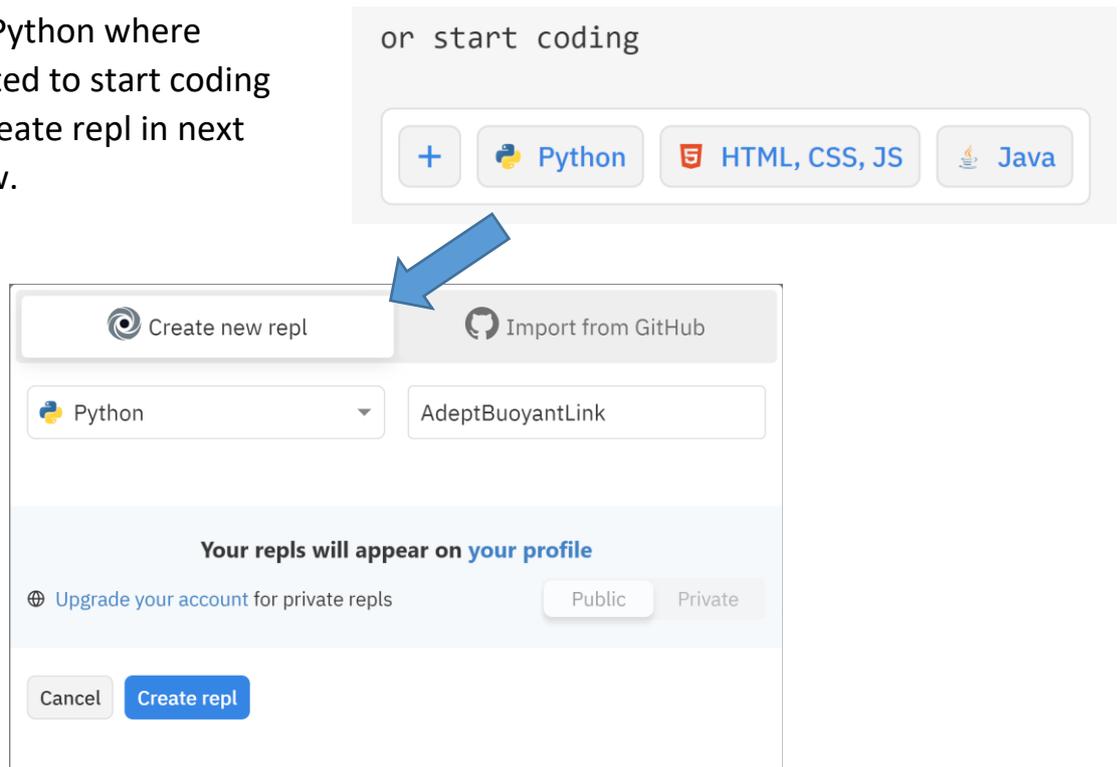

<https://repl.it/data/user/verify/618b0138613442884bd1d7f03864b3b5>

4. Answer a few questions about why you are using repl.it. Here is an example. →
5. Pick Python + two other languages (even if you are only interested in Python). You can select Java and HTML if you are not sure. Do not overthink it.

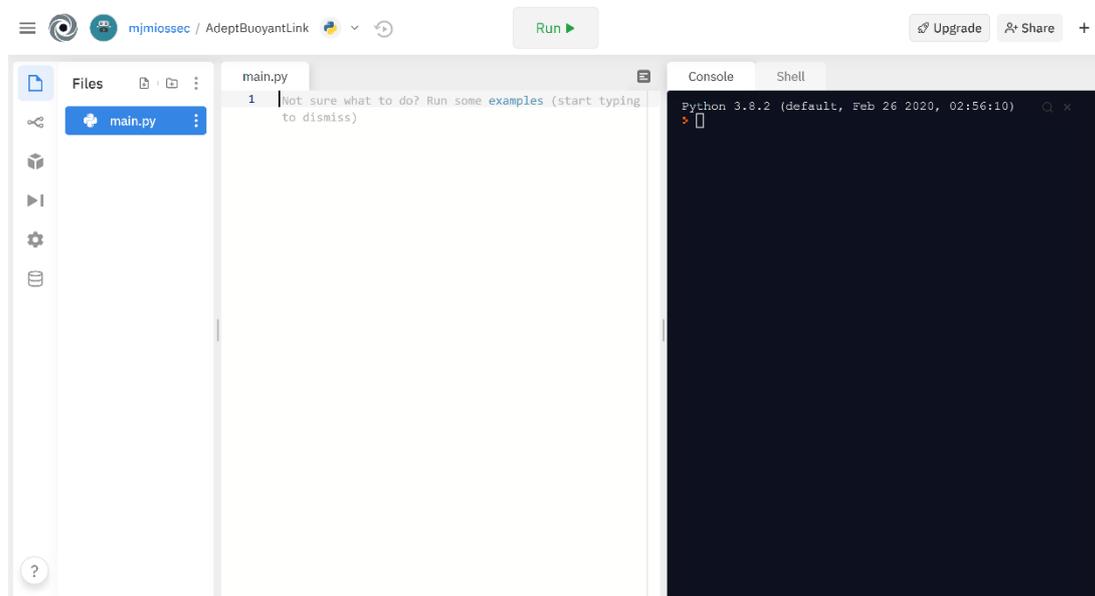

-- Create a repl.it account in 5 minutes or less --

6. Select Python where prompted to start coding then create repl in next window.

7. Ready! Let's get started!

(If you accidentally close your browser window at any point, log back in to repl.it and navigate to *My repls* to find your console again)
